- Contact your Genentech representative

PROGRAM OVERVIEW

Hear about a new treatment option for follicular lymphoma (FL)

Join us for a special panel discussion on a novel approach to treating patients with 3L+ FL. During this clinical presentation, 3 experts will discuss the unmet needs of patients with FL and will review the efficacy, safety, and administration of this new therapy. Learn about this new mechanism of action and its potential impact on patients with FL who have received ≥ 2 prior therapies.

PROGRAM OBJECTIVE

Learn about a 3L+ follicular lymphoma treatment.

INTENDED AUDIENCE

This broadcast is intended for US healthcare professionals involved in the treatment of FL.

BROADCAST SCHEDULE

The broadcast will be available at various times throughout the day, depending on your time zone. You can reference the chart below for a complete list of broadcast times. Once registered, you may participate in any of the sessions.
